## ROBOTS TAGS MANAGER

**PRESTASHOP 1.6 - 1.7.X MODULE**

**USER GUIDE 1.0**

---

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors and others of **Robots Tags Manager** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

This extension will only work on PrestaShop version 1.5.x to 1.6.x. As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand on how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

### HOW TO CUSTOMIZE ROBOTS TAGS MANAGER FOR CMS / CATALOG PAGES

At the back office, go to “Robots Tags Manager” Here you will find the following configurations.

#### Enable Index and Follow Management

- Enable / Disable the Module

A screenshot of a configuration panel titled "ENABLE INDEX AND FOLLOW MANAGEMENT". The panel has a light blue background and a green border. At the top left, there is a gear icon followed by the title. Below the title, the text "Enable Index and Follow management" is displayed. Underneath this text are two buttons: a blue button labeled "YES" and a grey button labeled "NO". At the bottom right of the panel, there is a "Save" button with a floppy disk icon above the text.

## CMS Category Pages

- Choose Index or NoIndex & Follow or NoFollow tags for CMS Category Pages

A screenshot of the 'CMS CATEGORY PAGES' configuration interface. The interface has a light blue header with a gear icon and the text 'CMS CATEGORY PAGES'. Below the header, the word 'Home' is displayed. There are four buttons arranged in a 2x2 grid: 'INDEX' (grey), 'NO INDEX' (red), 'FOLLOW' (grey), and 'NO FOLLOW' (red). At the bottom right, there is a 'Save' button with a floppy disk icon.

## HOW CUSTOMIZE ROBOTS TAGS MANAGER FOR PRODUCTS

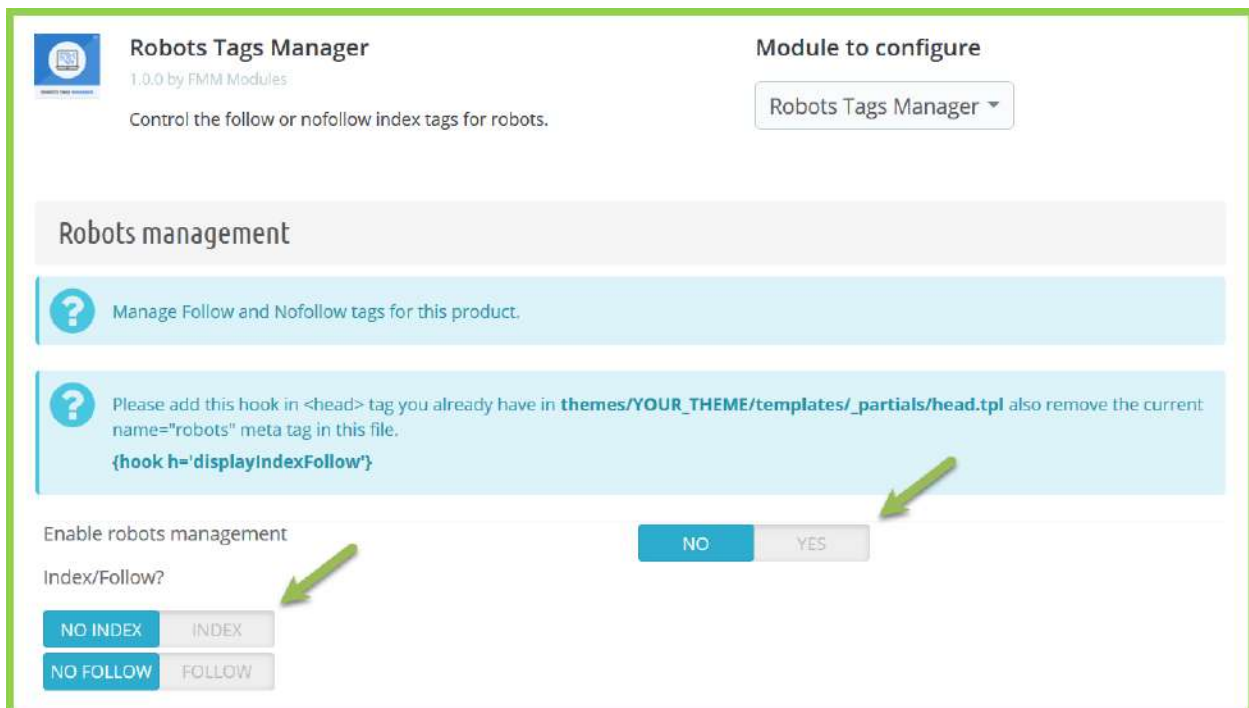

At the back office, go to “Products”. You can go there from **Catalog > Products**. Here you will find list of all the products on your store. Click on any product to continue.

By clicking on the products you will gain access to all its information. Click on “Modules” then click on Robots Tags Manager “Configure” to continue as indicated below.

Now here you can enable / disable Robot Tags and set them as per your requirement. You can do this for each product.

## DISCLAIMER

---

It is highly recommended to backup your server files and database before installing this module.

No responsibility will be taken for any adverse effects occurring during installation.

**It is recommended you install on a test server initially to carry out your own testing.**

## SUPPORT

---

If you need more information or have any questions or problems, please refer to our support helpdesk:

You can log a ticket and a support technician can assist you further.

## CUSTOMIZATION

---

If you have requirements that are not covered by our module and you need to have our module customized, feel free to contact us through support helpdesk.
