

# FME MODULES

PRESTASHOP 1.6.X TO 1.7.X MODULE

USER GUIDE 1.0

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **Presta Mob App For Android** Prestashop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

This extension will only work on Prestashop version 1.6.x to 1.7.x. As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

## INSTALLATION INSTRUCTIONS

*Compatible - PrestaShop 1.6.x - 1.7.x*

1. Log into **PrestaShop** administration panel, go to **Modules** → Click **Add new module**
2. Select **v1.0.0androidappbuilder.zip** which you downloaded and click upload this Module
3. Scroll down and find **Presta Mob App for Android** and click **Install**.
4. **Clear Cache** in **Advance Parameters** → **Performance**

## USER GUIDE

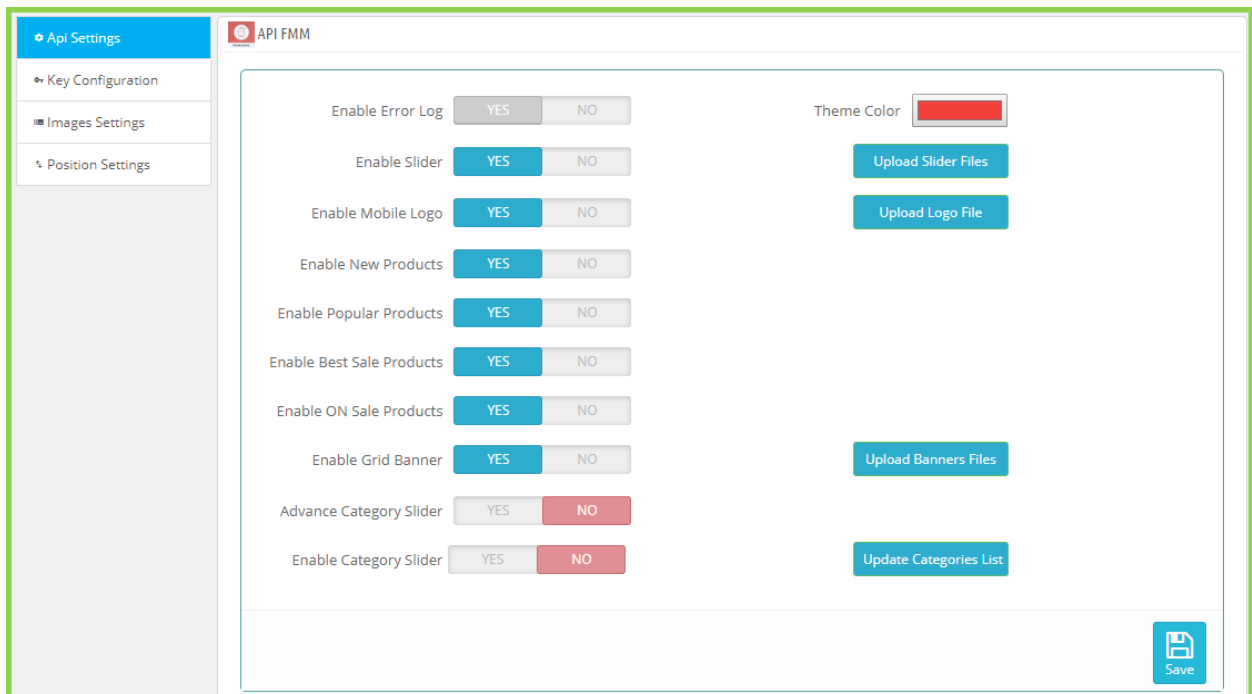

### HOW TO CONFIGURE THE MODULE

At the back office, go to **Presta Mob App for Android**. You can go there from **Modules > Modules Manager > Presta Mob App for Android**.

Here you will find the following configurations:

### API SETTINGS

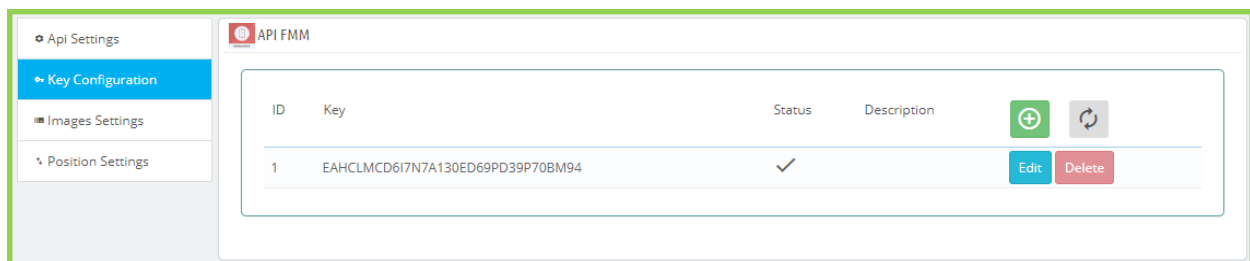

- Enable Error Log
- Theme Color
- Enable Slider
- Enable Mobile Logo

- Enable New Products
- Enable Popular Products
- Enable Best Sale Products
- Enable ON Sale Products
- Enable Grid Banner
- Advance Category Slider
- Enable Category Slider

## KEY CONFIGURATION

Here you will find a grid with all the API Keys that have been generated. Click on + to generate new key.

On clicking on + you will find the following fields.

Form fields:

- Key** (required): Text input field with a "Generate" button.
- URL**: Text input field with the value "http://phoneapp.bestprestashopmodules.net/fmmapi".
- Key description**: Text area for providing a description.
- Status**: Radio buttons for "YES" and "NO".

Buttons: Reset Form, Save Form, Close Form.

- **Key**: Website Account Key
- **URL**
- **Key Description**: Quick description of the key: who it is for, what permissions it has, etc.
- **Status**

**Note:** As you **Generate** the key and provide other information (or not as it is not required), you will have to send the key to us in a prereq form which we will provide the link to on purchase. Your app will be created based on the configurations.

## DISCLAIMER

It is highly recommended to backup your server files and database before installing this module.

No responsibility will be taken for any adverse effects occurring during installation.

**It is recommended you install on a test server initially to carry out your own testing.**

## SUPPORT

If you need more information or have any questions or problems, please refer to our support helpdesk:

You can log a ticket and a support technician can assist you further.

## CUSTOMIZATION

If you have requirements that are not covered by our module and you need to have our module customized, feel free to contact us through support helpdesk.
