## RESTRICT PAYMENT METHODS

PRESTASHOP MODULE

USER GUIDE

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users -managers, supervisors and others of Restrict Payment Methods PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand on how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

## INSTALLATION INSTRUCTIONS

1. Log into PrestaShop administration panel, go to Modules → Click Add new module
2. Select restrictpaymentmethods.zip which you downloaded and click upload this Module
3. Scroll down and find Restrict Payment Methods and click Install
4. Clear Cache in Advance Parameters → Performance

## USE CASES

### 1. Product-Specific Payment Restrictions for High-Value Items

A store sells both high-end electronics and general accessories. The admin wants to restrict certain payment methods like "Cash on Delivery" for products over \$1,000 to minimize risks. Using the module, the store owner can set a rule where expensive electronics only allow payment via secure methods such as credit card or bank transfer, ensuring safer transactions.

### 2. Location-Based Payment Customization

A business operates in multiple regions but has limitations on payment service providers in certain areas. For example, the store might only support "Bank Transfer" for customers in remote zip codes or specific cities where third-party payment processors do not operate. This module allows the admin to apply payment restrictions based on zip codes or city names to comply with regional limitations.

### 3. Scheduled Payment Restrictions for Promotions

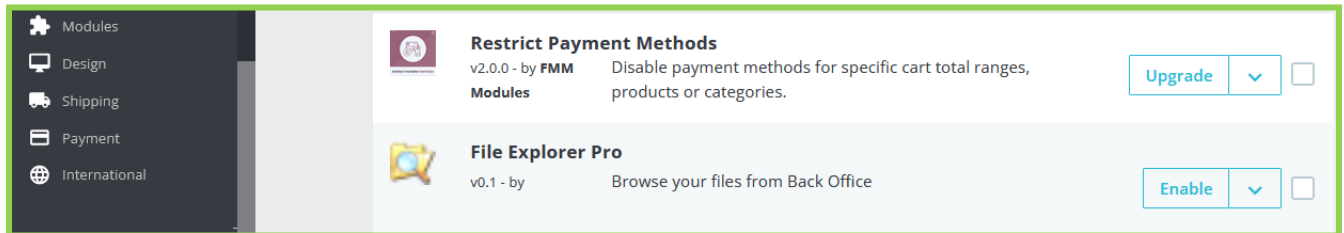

A store wants to run a weekend-only promotion with specific payment options. For example, during the weekend, customers can only use "Credit Card" and "PayPal" for purchases to facilitate quicker transactions. The store admin can schedule these payment method restrictions in advance for Saturday and Sunday, ensuring a seamless activation of payment rules when the weekend starts.

## USER GUIDE

### HOW TO CONFIGURE THE MODULE

At the back office, admin can configure basic settings of the module by going to Modules > Modules & Services > Restrict Payment Methods. Click on Configure to continue.

### GENERAL SETTINGS

Admin can configure the general settings of module as following:

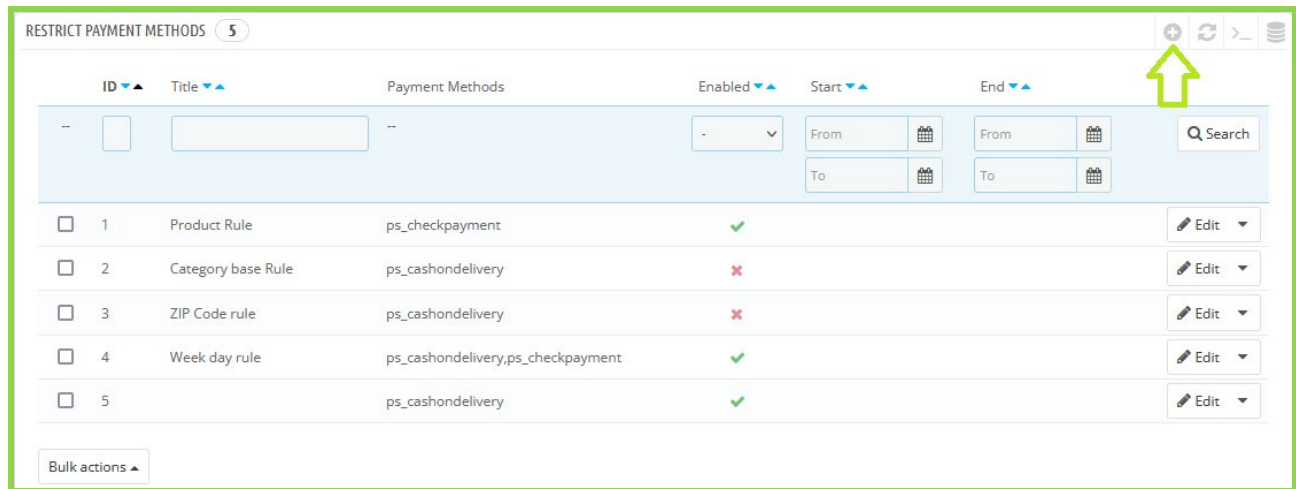

- Enable Product Page Block: Option to add a block on the Product page displaying all the payment methods available.
- Product Block Heading: Enter heading for the block
- Product Page Message Hook: Select where you want to show block on product page
- Show Message on Payment Area: Option to display a message to the users about non availability of the payment methods on the Payment tab in checking out process.
- Message for Payment Area: Option to create a message using WYSIWYG editor.

- Message for Payment Step - Multiple Rules Apply: If cart has conflicting payment method products in cart, this message will be shown to the users.

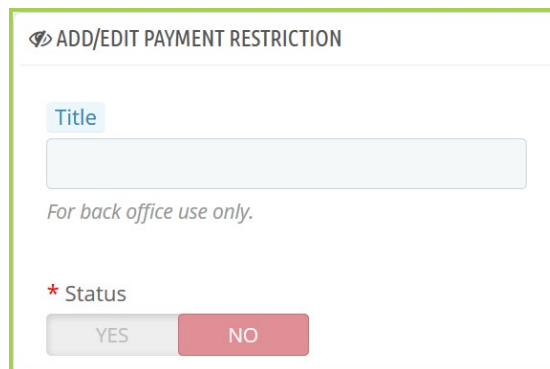

### HOW TO MANAGE RESTRICT PAYMENT METHODS

At the back office go to Restrict Payment Methods. Here you will find all the rules created. You can create multiple rules with each having its own conditions. Click on the + as highlighted in the image below to add new rules.

Here you will find the following rule settings:

- Title: Enter title for back office use only
- Status: Enable / Disable the rule

- Payment Methods to Disable: Choose the payment method which you would like to restrict. Also note that these payment methods will be disabled for below selected categories/products/cart totals

\* Payment Methods to Disable
