Validate VAT Number Module

Validate VAT Number Module

PrestaShop Module User Guide

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **Validate VAT Number at Registration** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

2. Select **v1.0.0validatevatnumber.zip** which you have downloaded and click **Upload this Module**
3. Scroll down and find **Validate VAT Number at Registration** and click **Install**.
4. **Clear Cache** in **Advance Parameters** → **Performance**

USER GUIDE

HOW TO CONFIGURE MODULE

At the back office, go to **Modules > Module Manager > Validate VAT Number at Registration**. Here you will find the module configurations.

The screenshot shows the 'Module Manager' interface. On the left is a sidebar with 'Modules', 'Module Manager', and 'Module Catalog'. The main area displays two modules:

- Validate VAT Number at Registration** (v1.0.0 - by FMM): This module allows you to add address form at registration process and also validate VAT number in B2B mode. It has a 'Configure' button and a dropdown arrow.
- Banner** (v2.1.1 - by PrestaShop): Add a banner to the homepage of your store to highlight your sales and new products in a visual and friendly way. It has a 'Configure' button, a dropdown arrow, and a 'Read more' link.

GENERAL SETTINGS

Admin can configure basic settings from here.

The screenshot shows the configuration page for the 'Validate VAT Number at Registration' module. It includes the following settings:

- Validate VAT?** Radio buttons for YES and NO (NO is selected).
- VAT Required?** Radio buttons for YES and NO (YES is selected).
- Auto Assign Group?** Radio buttons for YES and NO (YES is selected). Below it, the text reads: 'Auto Assign to the Customer Groups listed below?'
- Allow Duplicate VAT?** Radio buttons for YES and NO (YES is selected). Below it, the text reads: 'Allow same VAT numbers from different customers?'
- Send Invalid VAT Email?** Radio buttons for YES and NO (YES is selected). Below it, the text reads: 'Send email to the customer if the VAT number is Invalid?'
- Select Groups to Assign:** Two dropdown menus. The first contains 'Visitor', 'Guest', 'Customer', and 'Platinum Members'. The second contains 'VIP Members'. Below the first dropdown is an 'Add →' button, and below the second is a '← Remove' button.

- **Validate VAT:** Admin can enable this option to validate the VAT number.
- **VAT Required:** Admin can make VAT field Required by enabling this option.
- **Auto Assign Group:** Enable to auto assign new users to a customer group
- **Allow Duplicate Vat:** Enable to allow customers to use duplicate VAT numbers

- **Send Invalid VAT Email:** Enabling this option will send email to users if their vat number is invalid
- **Select Groups to Assign:** Select user groups here in which you want users to go.

ENABLE B2B MODE

For the module to work properly, you have to enable the B2B Mode. B2B mode can be enable by going to [Shop Parameters > Customer Settings > Enable B2B Mode](#).

The screenshot shows the 'Shop Parameters' configuration page. The left sidebar contains a navigation menu with 'Orders' and 'Customers' at the top, followed by an 'IMPROVE' section with 'Modules', and a 'CONFIGURE' section with 'Shop Parameters' (selected) and 'Customer Settings'. The main content area displays several settings:

Re-display cart at login ?	<input type="radio"/> NO	<input type="radio"/> YES
Send an email after registration ?	<input type="radio"/> NO	<input checked="" type="radio"/> YES
Password reset delay ?	360	minutes
Enable B2B mode ?	<input type="radio"/> NO	<input checked="" type="radio"/> YES
Ask for birth date ?	<input type="radio"/> NO	<input type="radio"/> YES
Enable partner offers ?	<input type="radio"/> NO	<input type="radio"/> YES

DISCLAIMER

It is highly recommended to backup your server files and database before installing this module.

No responsibility will be taken for any adverse effects occurring during installation.

It is recommended you install on a test server initially to carry out your own testing.

SUPPORT
