

# FME Modules

**PrestaShop 1.6.x To 1.7.x Module**

**User Guide 1.0**

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of "Price Tax Switcher" PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

This extension will only work on the PrestaShop version 1.6.x to 1.7.x. As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

## TABLE OF CONTENTS

## INSTALLATION INSTRUCTIONS

*Compatible - PrestaShop 1.6.x – 1.7.x*

1. Log in to **PrestaShop** administration panel, go to **Modules** → Click Add new module
2. Select **v1.0.0Pricetaxswitcher.zip** which you have downloaded and click upload this Module
3. Scroll down and find **Price Tax Switcher** and click **Install**. You are done
4. **Clear Cache** in **Advance Parameters** → **Performance**

## USER GUIDE

### GENERAL SETTINGS

The screenshot shows the configuration interface for the 'Tax Toggle' module. At the top, there is a breadcrumb trail: 'Modules / taxtoggle / Configure'. Below this, the title 'Configure Tax Toggle' is displayed. To the right of the title are four buttons: 'Back', 'Translate', 'Check update', and 'Manage hooks'. The main content area is titled 'Settings' and contains a single configuration option: 'Tax' with a toggle switch set to 'Tax Included'. Below the toggle, it says 'Default tax setting'. At the bottom left is a 'Cancel' button, and at the bottom right is a 'Save' button.

**Tax:** Option to set the default Tax settings as Tax Included.

## DISCLAIMER

It is highly recommended to back up your server files and database before installing this module.

No responsibility will be taken for any adverse effects occurring during installation.

**It is recommended you install on a test server initially to carry out your own testing.**

## SUPPORT

If you need more information or have any questions or problems, please refer to our support helpdesk:

You can log a ticket and a support technician can assist you further.

## CUSTOMIZATION

If you have requirements that are not covered by our module and you need to have our module customized, feel free to contact us through support helpdesk.
