Getting Started!

Overview

The PrestaShop Review Summarizer Module uses advanced AI technology to automatically analyze and summarize product reviews. It provides quick, meaningful insights such as average rating, sentiment trends, and customer highlights — helping shoppers make informed decisions instantly. With support for OpenAI, Google Gemini, and Claude, plus fake review detection and flexible display options, this module brings intelligence and credibility to your store’s review system.

Installation Instructions

1. Go to Modules → Modules Manager → Click Upload a Module → Browse for Downloaded Module ZIP file and click Upload this module.
2. Click Proceed with Installation.
3. Make sure Cache is disabled in Advance Parameters → Performance.
4. Go to Modules → Modules Manager → AI Review Summarizer to Configure the module

User Guide

Module Configuration:

After installing the module go to **Module > Module Manager > AI Review Summrizer**. Here you will see all the configuration for your module.

AI Review Summary Configuration

Enable AI Review Summarizer Enabled
Turn ON to activate automatic AI review summaries.

Summarization Trigger
Choose when summaries should be generated.

Summary Length
Set how long the generated summaries should be.

AI Provider
Select which AI engine to use for generating summaries.

Include Rating Insights Yes
Show average rating and most common rating patterns in the summary.

Enable Fake Review Detection Enabled
Detect and flag suspicious or bot-like reviews automatically.

Fake Review Sensitivity %
Set how strict the detection should be (0 = lenient, 100 = strict).

Cron Security Token
Used to protect the cron link for running the summarizer automatically.

Logging Level
Set how much detail to record in AI review logs.

Product Page Display Position
Choose where the AI Review Summary should be displayed on the product detail page.

Review Module Compatibility
Select if you want to use the default or an external review module.

Enable AI Review Summarizer: Turn the AI review summarization feature on or off.

Summarization Trigger (By Cron or Manual): Choose whether summaries are generated automatically via cron job or manually by running the cron URL.

Summary Length: Select how detailed the AI summary should be — Short, Medium, or Detailed.

AI Provider: Pick your preferred AI platform — OpenAI, Google Gemini, or Claude — and enter your API key.

Include Rating Insights: Show average rating and satisfaction insights in the summary box.

Enable Fake Review Detection: Activate AI-based detection to identify suspicious or fake reviews.

Fake Review Sensitivity: Set how strictly the AI should flag potential fake reviews.

Cron Security Token: Add a security token to protect your cron URL from unauthorized access.

Logging Level: Define how detailed the module's logs should be (e.g., Errors Only, Detailed, or Full).

Product Page Display Position: Choose where the review summary will appear on the product page.

Review Module Compatibility: Enable compatibility with other third-party review modules.

Note: For third party module to be compatible you need to have some technical information from that module, you can always contact us.

You need paid APIs.

ChatGPT: Click [here](#)

Gemini: Click [here](#)

Claude: Click [here](#)

Note: We can also integrate any other AI model of your choice also any sms service, subject to additional setup charges.

Note: You need to manually access the cron link for summaries to be generated. For a product review summary are generated once every 24 hours. That means even if you run cron job again between that time, new summaries will not be generated. Still if you need to generate summaries then you need to generate all old summaries.

Review Summaries

Go to AI Review Intelligence > Review Summaries. Here you will see all the summaries AI has generated. You can edit any one of them by clicking on edit button.
