Getting Started!

Overview

Prestashop Product Tabs module allows you to create extra tabs on your product pages to provide additional information to your customers. Create new tabs using WYSIWYG editor or utilize 4 pre-designed tabs for adding video, inquiry form, size chart, downloadable file.

1. Create Multiple Extra Tabs & Assign to Specific Products
2. Option to generate tab content using ai
3. WYSIWYG Editor to Display Any Type of Content
4. You Can Show Text, FAQs, Links, Images, Videos, Reviews, etc.
5. Multiple Tabs display options (Accordion, horizontal, vertical)
6. Fully Responsive, Multi-Store & Multi-Lingual
7. No subscription fees. Free lifetime support and upgrades.

Installation Instructions

1. Go to Modules → Modules Manager → Click Upload a Module → Browse for Downloaded Module ZIP file and click Upload this module.
2. Click Proceed with Installation.
3. Make sure Cache is disabled in Advance Parameters → Performance.
4. Go to Modules → Modules Manager → Pretty URL to Configure the module

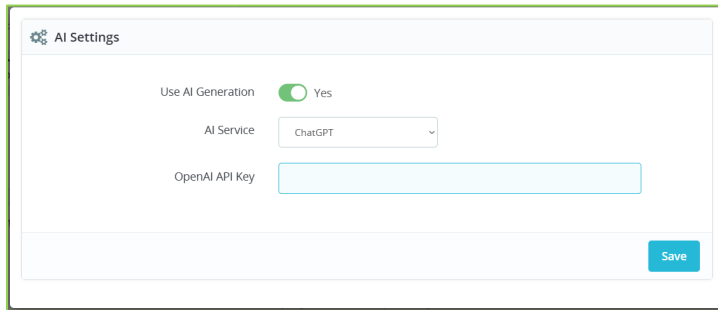

User Guide

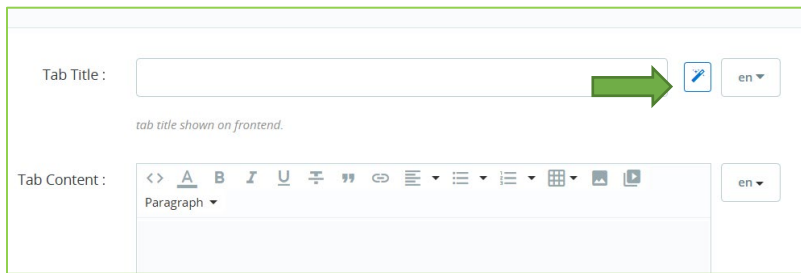

Module Configuration

AI Configuration

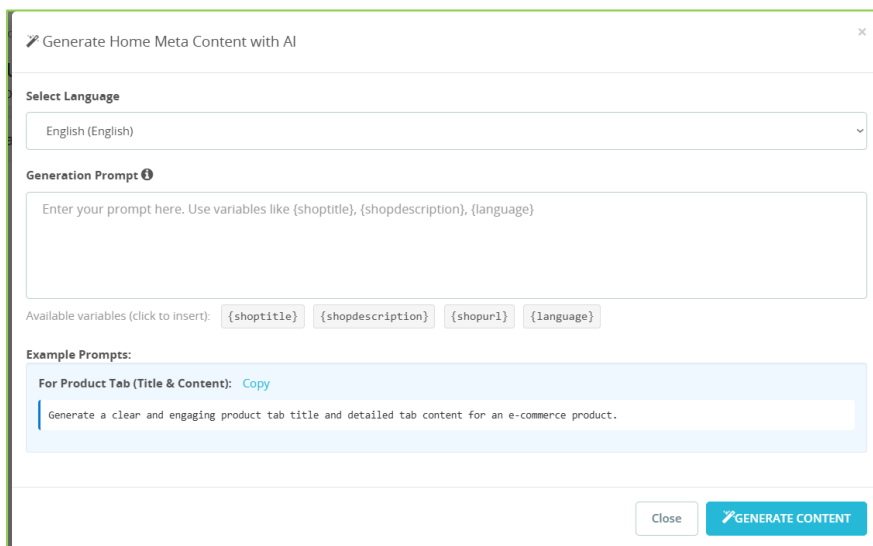

In latest update you have the option to generate tabs content using AI. In module configuration at the top you have the button to integrate ai api key.

After you have added your api key, a ai content generate button will appear in tab creation dialog box.

Clicking on this button will open content generate ai dialog box. You can give the prompt to the ai and it will generate and add the content to the tab.

General Settings

Go to Backoffice → Go to Modules → Modules Manager → Product Tabs → Configure

On right hand side you will see the general settings

General Settings
