Getting Started!

Overview

Order totals is an admin side free PrestaShop module that shows total amount of orders placed along with the quantity of products purchased in a given period. This module offers 10 different filters by which admin can sort information in a grid. This information can then be exported to a PDF file for analyses and reporting.

Features

Order totals module elegantly shows orders' information on the back office so that admin can easily track them and analyze to devise future strategy. All orders are displayed in a grid along with key metrics such as:

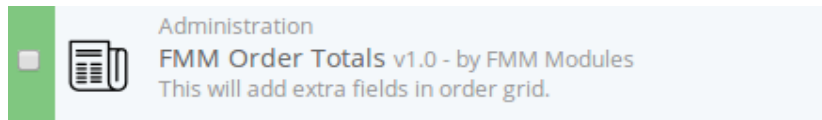

1. Conversion rate
2. Abandon carts
3. Average order value
4. Net Profit per visitor
5. Order Grid Filters
6. Following filters are available to get the required information easily:
7. Order Reference
8. New Client (Yes/No)
9. Delivery location
10. Customer name
11. Quantity of products in the order
12. Total order amount
13. Conversion rate
14. Payment Method
15. Order Status

Installation

Step by Step

General Installation instructions

1. Log into PrestaShop administration panel, go to **Modules** → Click **Add new module**.
2. Select **fmmorderfields.zip** which you downloaded and click **Upload this module**.
3. Scroll down and find **FME Order Totals** and click **Install**. You are done
4. **Clear Cache** in **Advance Parameters** → **Performance**.

Disclaimer

It is highly recommended to backup your server files and database before installing this module.

No responsibility will be taken for any adverse effects installation or advice may cause.

Support
