

FME Modules

Professional Banners Module

User Guide

INTENDED AUDIENCE

The content of this document is designed to facilitate the users -managers, supervisors, and others of the Prestashop Professional Banners Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

INSTALLATION INSTRUCTIONS

1. Log in to PrestaShop administration panel, go to Modules → Click Add new module
2. Select professionalbanners.zip which you have downloaded and click Upload this Module
3. Scroll down and find Prestashop Professional Banners Module and click Install.
4. Clear Cache in Advance Parameters → Performance

USE CASES

- **Promoting Sales and Special Offers**

Utilize the module to create eye-catching banners that highlight ongoing sales, discounts, or special promotions. By strategically placing these banners on your website, you can attract customer attention and drive increased sales.

- **Showcasing New or Featured Products**

Design and display banners that feature new arrivals or best-selling products. This visual emphasis can guide customers toward specific items, boosting product visibility and encouraging purchases.

- **Enhancing User Navigation with Informative Banner**

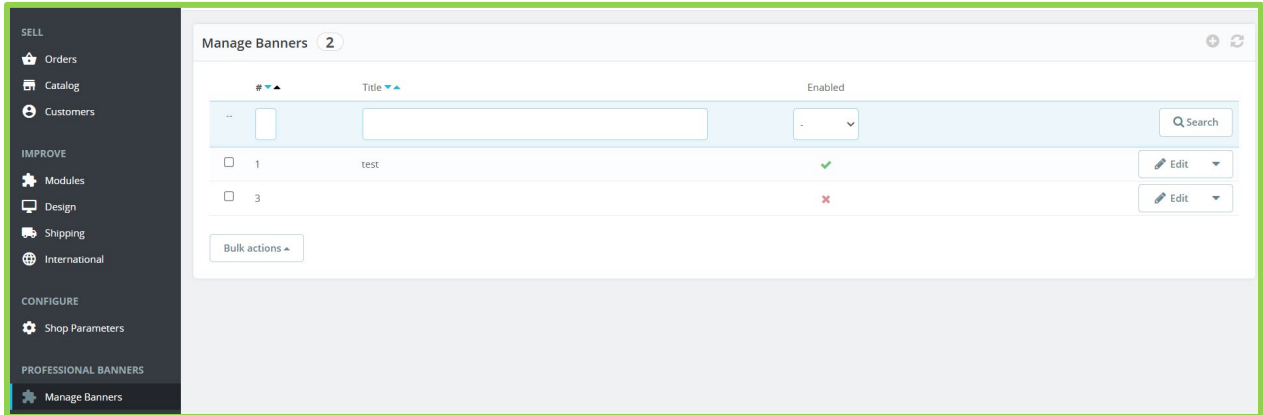

Implement banners that provide information about different product categories, upcoming events, or shipping details. Informative banners can improve user experience by making it easier for customers to find relevant information and navigate your store effectively.

USER GUIDE

HOW TO CONFIGURE MODULE

At the back office, go to Professional Banners > Prestashop Professional Banners Module. Here you will find the module configurations and option to add new banners.

MANAGE BANNERS

Click on top + button to add a new banner.

INFORMATION TAB

The screenshot shows a form titled "Block Information" for managing banners. It contains several fields and controls:

- Block Title:** A text input field with a language dropdown menu set to "en".
- Description:** A large text area with a language dropdown menu set to "en".
- Count Down Content:** A large text area with a language dropdown menu set to "en".
- Countdown link:** A text input field containing "https://exapmle.com/en/6-accessories" and a language dropdown menu set to "en".
- Block Position:** A dropdown menu currently showing "No Where" with a note below it: "Choose where you want to display banner block".
- Valid:** Two date input fields labeled "from" and "to". The "from" field contains "2025-02-28 05:00:00" and the "to" field contains "2025-03-28 05:00:00". A note below reads: "Default period is one month."
- Position:** A text input field containing the number "0" with a note below it: "Blocks display position".
- Status:** A toggle switch currently set to "No".

- **Block Title:** Enter the title of the banner block to display on the frontend.
- **Description:** Add a brief text description to provide details about the banner.
- **Countdown Content:** Set up a countdown timer to highlight time-sensitive offers.
- **Countdown Link:** Add a clickable link to direct users to a specific page or product.
- **Status:** Enable or disable the banner block as needed.
- **Block Position:** Choose from 30+ predefined positions to display the banner.
- **Valid From and To:** Set the start and end date for the banner's visibility.
- **Position:** Define the exact placement of the banner block on the page.
- **Status:** Enable or disable this banner

IMAGES TAB

Here you will be able to add the images for your banners.
