PRESTASHOP

## GOOGLE MAPS ON CONTACT US

**PrestaShop 1.6.x To 1.7.x Module**  
**User Guide 1.0**

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **Google Maps on Contact us** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

This extension will only work on the PrestaShop version 1.6.x to 1.7.x. As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

3. Scroll down and find **Google Maps on Contact Us** and click **Install**.
4. **Clear Cache** in **Advance Parameters** → **Performance**

## USER GUIDE

### HOW TO CONFIGURE MODULE

At the back office, go to **Modules > Module Manager > Google Maps on Contact Us**. Here you will find the module configurations.

The screenshot shows the PrestaShop Module Manager interface. On the left is a sidebar with navigation options: Modules, Module Manager, Module Catalog, Design, Shipping, Payment, and International. The main content area displays three modules:

- Google Maps on Contact Us** (v1.0.0 - by FMM Modules): Improve your contact us page by adding maps and other info blocks to give it better look. Configuration options: **Configure** (dropdown),
- Available quantities** (v2.0.0 - by PrestaShop): Adds a tab showing the quantity of available products for sale to the Stats dashboard. ... [Read more](#). Configuration options: **Disable** (dropdown),
- Best categories** (v2.0.0 - by PrestaShop): Adds a list of the best categories to the Stats dashboard. ... [Read more](#). Configuration options: **Disable** (dropdown),
