## Getting Started!

### Overview

---

Labels serve as primary communication media for your products. They convey special information to your customers regarding products, it helps catching those customers who are hesitant in shopping at your site. PrestaShop Sticker Module by FME allows you to attach labels on specific products & category pages. You can add labels such as 'New', 'On Sale', 'Buy 1, Get 1 Free' etc.

### Features

---

PrestaShop Stickers Module allows you to upload catchy product labels from back office and then attach them easily with required products. Prices do not reflect the true benefits of products, which does not help in making a purchasing decision. Product Labels help convey important information about the products to customers in an impressive and appealing manner.

Labels such as 'New', 'Hot', 'Will be Back in 2 Days' etc., do not only market your products impressively but they also help keep customers coming back to your site.

This module adds a new tab in product settings for admin to assign labels to products easily. Multiple stickers can overlay product images as required by the admin. There is a separate section on the back office to upload the stickers.

## Installation Instructions

---

1. Log into [PrestaShop](#) administration panel, go to [Modules](#) → Click Add new module.
2. Select [productlabels.zip](#) which you downloaded and click upload this
3. Module.
4. Scroll down and find [Custom Product Design](#) and click [Install](#). You are done
5. [Clear Cache](#) in [Advance Parameters](#) → [Performance](#).
6. Module will add extra [Tab Link](#) in [Back Office Edit Product](#) and you will see the tab on left.
7. [Preview](#) of customized product will be shown with order on order detail page.
