PrestaShop Module User Guide

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **Quick Buy Now** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

INSTALLATION INSTRUCTIONS

1. Log in to **PrestaShop** administration panel, go to **Modules** → Click **Add new module**
2. Select **v1.0.0quickbuynow.zip** which you have downloaded and click **Upload this Module**
3. Scroll down and find **Quick Buy Now** and click **Install**
4. **Clear Cache** in **Advance Parameters** → **Performance**

USER GUIDE

HOW TO CONFIGURE MODULE

At the back office, go to **Modules > Module Manager > Quick Buy Now**. Here you will find the module configurations.

The screenshot shows the Prestashop Module Manager interface. On the left is a sidebar with navigation options: Modules (selected), Design, Shipping, Payment, and International. The main area displays two modules:

- Quick Buy Now** (v1.0.0 - by FMM): Description: "The Prestashop Quick Buy Now module offers a customizable quick buy button. It directs customers to their cart, checkout, or external link, with placement options before, after, or replacing the add to cart button." Action: "Configure" button with a dropdown arrow and a checkbox.
- Registered customer information** (v2.0.4 - by PrestaShop): Description: "Enrich your stats, add information about your registered customers and learn more about them!" Action: "Disable" button with a dropdown arrow and a checkbox.

GENERAL SETTINGS

General module settings can be configured from here.

The screenshot shows the "Settings" page for the Quick Buy Now module. It includes the following configuration options:

- Enable Quick Buy Button:** A toggle switch is turned on, labeled "Enabled". Below it, the text reads: "Enable This To Activate The QuickBuyNow module".
- Button Background Color:** A color picker shows the hex code #ff2502. Below it, the text reads: "This Is The Background Color Of The Quick Buy Now Button."
- Button Text Color:** A text input field shows the hex code #ffffff. Below it, the text reads: "This Is The Text Color Of The Quick Buy Now Button."
- Button Hover Color:** A color picker shows the hex code #1d93ab. Below it, the text reads: "This Is The Color On Hover Of The Buy Now Button."

A "Save" button is located at the bottom right of the settings panel.

- **Enable Quick Buy Button:** Click enable to enable the module.
- **Button Background Color:** Option to set the background color of the button.
- **Button Text Color:** Option to set the text color of the button.
- **Button Hover Color:** Option to set the button hover color.
