

FME Modules

PrestaShop 1.6.x To 1.7.x Module
User Guide 1.0

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **Stock & Sold Counter** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

This extension will only work on the PrestaShop version 1.6.x to 1.7.x. As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

Creating a fake number of sold items

At the back office, go to **Modules > Modules Manage > Stock & Sold Counter > Configure > Sold Counter** Section. Here you will find the option to configure the fake number of items sold.

The screenshot shows a web form titled "CREATE/EDIT" for configuring the "Sold Counter". The form contains the following fields and options:

- Title:** A text input field containing "Mountain fox". Below it is the note: "Only used in backoffice."
- Find Product:** A dropdown menu with "Example: Blue XL shirt" selected. Below it, a selected item is shown: "Hummingbird printed t-shirt (ID:1)" with a small product image and a close button (X).
- Minimum Count:** A text input field containing "100". Below it is the note: "This Count Will be added to the actual sales count."
- Save:** A button with a floppy disk icon and the text "Save" located at the bottom right of the form.

- **Title:** Enter the Title of this rule.
- **Find Product:** Enter product name, it will appear in search box
- **Minimum Count:** Enter the minimum count number, the available stock for this product will be added to this number

DISCLAIMER

It is highly recommended to backup your server files and database before installing this module.

No responsibility will be taken for any adverse effects occurring during installation.

It is recommended you install on a test server initially to carry out your own testing.

SUPPORT

If you need more information or have any questions or problems, please refer to our support helpdesk:

You can log a ticket and a support technician can assist you further.

CUSTOMIZATION

If you have requirements that are not covered by our module and you need to have our module customized, feel free to contact us through support helpdesk.
