

# FME Modules

**PrestaShop 1.6.x To 1.7.x Module  
User Guide 1.0**

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **Meta Keywords Generator** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

This extension will only work on the PrestaShop version 1.6.x to 1.7.x. As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

## INSTALLATION INSTRUCTIONS

*Compatible - PrestaShop 1.6.x - 1.7.x*

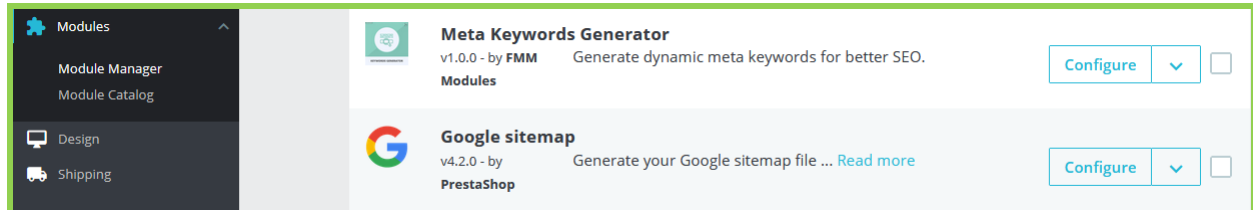

1. Log in to **PrestaShop** administration panel, go to **Modules** → Click **Add new module**
2. Select **v1.0.0keywordsgenerator.zip** which you have downloaded and click **Upload this Module**
3. Scroll down and find **Meta Keywords Generator** and click **Install**.
4. **Clear Cache** in **Advance Parameters** → **Performance**

## USER GUIDE

### HOW TO CONFIGURE MODULE

At the back office, go to **Modules > Module Manager > Meta Keywords Generator**. Here you will find the module configurations.

## AUTO KEYWORDS GENERATOR

Admin can configure the settings for the auto keywords.

A screenshot of the 'AUTO KEYWORDS GENERATOR' configuration page. The page has a light green border and a title bar with a gear icon and the text 'AUTO KEYWORDS GENERATOR'. There are four main settings: 1. 'Generate keywords for Products' with a toggle switch set to 'YES'. 2. 'Generate keywords for Categories' with a toggle switch set to 'YES'. 3. 'Generate keywords for CMS Pages' with a toggle switch set to 'YES'. 4. 'Single Word Minimum Length' with a text input field containing '3'. Below this field is a note: 'Minimum length of single words you want to target as keyword. For example the word "butter" length is 6 so if we enter 6 here it will ignore all words whos length is less than 6. Recommended value is 3 or 4'. 5. 'Single Word Minimum Occurance' with a text input field containing '1'. Below this field is a note: 'Minimum occurance of single words, like for example the word "butter" must repeat X times in descriptions to qualify for keywords. Recommended value is 1'.

- **Generate keywords for Products:** Admin can enable this option to generate keywords for the Product pages.
- **Generate keywords for Categories:** Admin can enable this option to generate keywords for Categories.
- **Generate keywords for CMS Pages:** Admin can enable this option to generate keywords for the CMS pages.
- **Single Word Minimum Length:** Admin can enter the minimum length for a single word. Any other word will not be considered as keyword.
- **Single Word Minimum Occurance:** Admin can enter the minimum occurrence for single word. The word must be repeated "X" times in order to qualify as a keyword.

Two Words Minimum Length	<input type="text" value="2"/>
<i>Minimum length of two words you want to target as keyword. For example the word "butter knife" length is 12 so if we enter 12 here it will ignore all words whos length is less than 12. Recomended value is 8 or 10</i>	
Two Words Minimum Occurance	<input type="text" value="1"/>
<i>Minimum occurance of two words, like for example the word "butter knife" must repeat X times in descriptions to qualify for keywords. Recomended value is 1</i>	
Three Words Minimum Length	<input type="text" value="2"/>
<i>Minimum length of three words you want to target as keyword. For example the word "buy butter knife" length is 16 so if we enter 16 here it will ignore all words whos length is less than 16. Recomended value is 10 or 12</i>	
Three Words Minimum Occurance	<input type="text" value="1"/>
<i>Minimum occurance of three words, like for example the word "buy butter knife" must repeat X times in descriptions to qualify for keywords. Recomended value is 1</i>	

- **Two Words Minimum Length:** Admin can enter the minimum length for two words; like "ONE TWO", here length of the words is 7 (including Space).So any other words with length less than 7 will not be considered as keyword.
- **Two Words Minimum Occurance:** Admin can enter the minimum occurrence for two words. The word must be repeated "X" times in order to qualify as a keyword.
- **Three Words Minimum Length:** Admin can enter the minimum length for three words; like "ONE TWO THREE", here length of the words is 13 (including Space).So any other words with length less than 13 will not be considered as keyword.
- **Three Words Minimum Occurance:** Admin can enter the minimum occurrence for three words. The word must be repeated "X" times in order to qualify as a keyword.

## DISCLAIMER

It is highly recommended to backup your server files and database before installing this module.

No responsibility will be taken for any adverse effects occurring during installation.

**It is recommended you install on a test server initially to carry out your own testing.**

## SUPPORT

If you need more information or have any questions or problems, please refer to our support helpdesk:

You can log a ticket and a support technician can assist you further.

## CUSTOMIZATION

If you have requirements that are not covered by our module and you need to have our module customized, feel free to contact us through support helpdesk.
