**PRESTASHOP MODULE USER GUIDE**

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **Related Products** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

 Save

## Related Product Visibility Criteria

Admin can add multiple visibility criteria for related products.

The screenshot shows a configuration form for 'Related Product Visibility Criteria'. At the top, there is an 'Active' toggle with 'YES' and 'NO' options, where 'NO' is selected. Below this is a 'Title' text input field with the note 'Only used in backoffice.' underneath. The form is divided into two main sections: 'Select Rules' and 'Select visibility criteria (Where to display)'. The 'Select Rules' section has a sub-header 'Related Products Rules' and four radio button options: 'Home Page Related Products', 'Cart Page Related Products', 'Related Products CMS', and 'Product Page Related Products'. The 'Select visibility criteria' section has a sub-header 'Where to display products' and two radio button options: 'Selected Categories' and 'Specific Products'.

## Set New Visibility Criteria

- **Active:** Enable/Disable the rule
- **Title**
- **Select Rules:** Option to select the rules
- **Select Visibility Criteria:** Option to select the visibility criteria, ie, where to display the products

## DISCLAIMER

It is highly recommended to back up your server files and database before installing this module.

No responsibility will be taken for any adverse effects occurring during installation.

**It is recommended you install on a test server initially to carry out your own testing.**

## SUPPORT

If you need more information or have any questions or problems, please refer to our support helpdesk:

You can log a ticket and a support technician can assist you further.

## CUSTOMIZATION

If you have requirements that are not covered by our module and you need to have our module customized, feel free to contact us through support helpdesk.
