PrestaShop Module User Guide

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **PC Builder** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

BUILDER

BASIC SETTINGS

Admin can configure basic settings from here.

The screenshot shows the 'BASIC SETTINGS' configuration page for a PC Builder. The page has tabs for 'BASIC SETTINGS', 'COMPONENTS', 'SEO', and 'SHIPPING'. The 'BASIC SETTINGS' tab is active. The form includes the following fields:

- Name:** A required text input field with a red asterisk. Below it, the text reads: "enter a title name for builder."
- Friendly URL:** A text input field. Below it, the text reads: "friendly url will be auto generated from builder name."
- Quantity:** A text input field containing the value '0'. Below it, the text reads: "enter available quantity for builder."
- Price:** A text input field containing 'USD 0'. Below it, the text reads: "enter a base price for builder."
- Tax Rule:** A dropdown menu currently set to 'None'. Below it, the text reads: "select a tax rule."
- Status:** A toggle switch with 'YES' selected and 'NO' unselected. Below it, the text reads: "enable/disable builder."
- Component Summary:** A rich text editor with a toolbar and a text area. Below it, the text reads: "enter a short description for builder."
- Component Description:** A rich text editor with a toolbar and a text area. Below it, the text reads: "enter a detailed description for builder."
- Image:** A file upload button labeled 'Choose File' with the text 'No file chosen' next to it. Below it, the text reads: "Only Valid Image Formats i.e: jpg, jpeg, png. Filesize: 2 MB"

- **Name**
- **Friendly URL:** A friendly URL will generate automatically from the name.
- **Quantity:** The available quantity will be mentioned here.
- **Price**
- **Tax Rule:** Option to add tax rule from the dropdown list.
- **Status**
- **Component Summary**
- **Component Description**
- **Image**

COMPONENTS

Display Layout: select a display method.

Select Components

<input type="checkbox"/>	ID	Component	Required	
<input type="checkbox"/>	1	Case	✗	
<input type="checkbox"/>	2	Processor	✓	
<input type="checkbox"/>	3	RAM	✓	
<input type="checkbox"/>	4	Storage	✗	

- **Display Layout:** Option to choose the layout for displaying component.
- **Select Components:** Option to choose the components from the list. Admin can make components mandatory as well.

SEO

Admin can optimize the product by adding the Meta title, Meta description and Meta keywords.

Meta Title: 70 characters recommended.

Meta description: 160 characters recommended

Meta Keywords: Use a comma to create separate tags. E.g.: dress, cotton, party dresses.

SHIPPING

Admin can cost shipping charges depending on the dimensions set here.
