### HOW TO CONFIGURE THE MODULE

At the back office, go to **Upsells Configurations**. You can go there from **IMPROVE > Modules > Module Manager > Up Sell Products**.

The screenshot shows the PrestaShop back office interface. On the left is a dark sidebar with the 'IMPROVE' logo and a 'Modules' menu item. Below it, the 'UPSELL PRODUCTS' section is expanded, showing 'Add Promotion', 'View', and 'Upsells Rules' options. The main content area has a light gray background. At the top, a dashed box contains the message: 'You do not have module in « Specialized Platforms ». Discover the best-selling modules of this category in the [Specialized Platforms](#) page.' Below this, there is an 'Other' section. A white card displays the 'Up Sell Products' module, version v2.0.1 by FMM. The card includes a small icon, the module name, version, and developer, a description: 'Up Sell Products increase your average cart value by offering customized discounts to your clients in the shopping cart summary.', and a 'Configure' button with a dropdown arrow and a checkbox.

Click on **Configure** and you will have access to the following settings:

## SETTINGS
