Getting Started!

Overview

FME News Slider is a free module that allows you to display latest news, events information on home page, in an elegant block on left column. This block shows title and short description of news/events, where users can click on it to read more details on a separate page. WYSIWYG editor enables you to upload images, videos and format text as required. Click on Demo to view all features.

Features

News Slider Free module by FME is a very useful plugin that lets you display important information to your website visitors right on the home page, in an impressive manner. This module adds a beautiful slider on the left column of your home page, which serves as a news ticker. You can display breaking news, updates, highlights, promotions and anything valuable for your customers.

The information displayed in the news slider is shown in detail on a separate page. Admin can add details like videos, images, links, text and format it as required. This free module is easy to install and manage.

Click on DEMO to view all features.

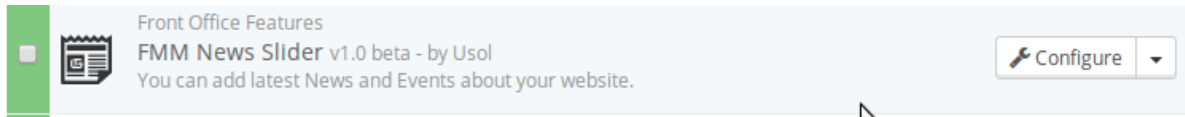

Installation

Step by Step

General Installation instructions
