Getting Started!

Overview

The PrestaShop Gift Box Builder Module allows your customers to create personalized gift boxes by selecting products of their choice. With flexible layout options, custom selection styles, and dynamic pricing, this module enhances the shopping experience while increasing average order value. Perfect for holidays, birthdays, and special occasions, it lets store owners define rules, offer gift wrapping, and manage box configurations with ease.

Installation Instructions

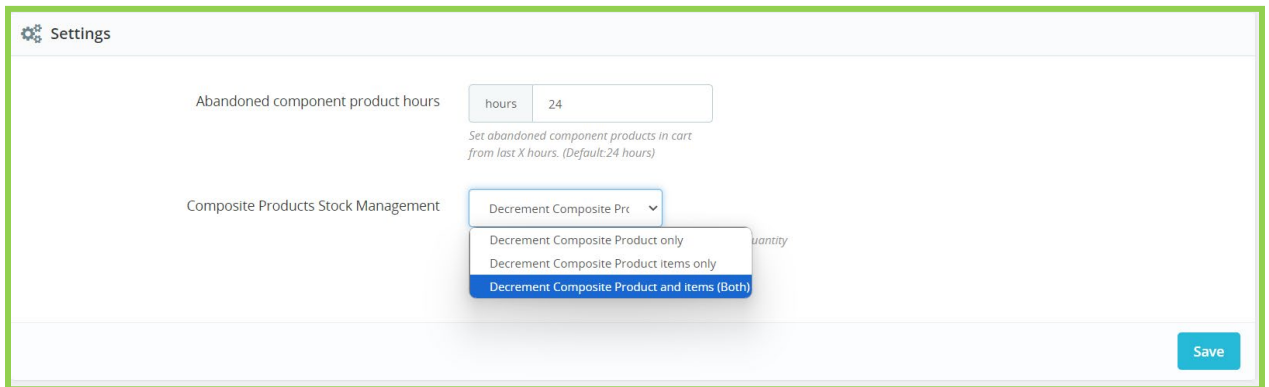

1. Go to Modules → Modules Manager → Click Upload a Module → Browse for Downloaded Module ZIP file and click Upload this module.
2. Click Proceed with Installation.
3. Make sure Cache is disabled in Advance Parameters → Performance.
4. Go to Modules → Modules Manager → Gift Box Builder to Configure the module

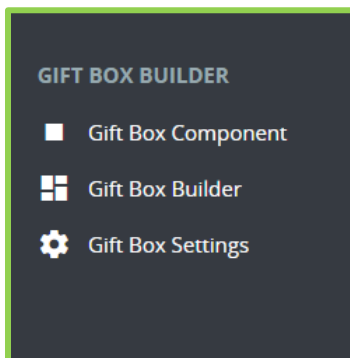

User Guide

Module Configuration

1. After the installation of module, go to module configuration, where you will find following settings.
2. Composite Products Stock Management: Configure how your composite products/product item quantity behaves on a successful order. You can either decrease main composite product only, decrease composite items only or both.
3. You can create a new top menu link for Gift Pack Builder by going to Modules > Module Manager > Main Menu.
Use this link to create separate menu for your builder products.
<https://yourstorename.com/builders>

4. After the installation of module, you will see extra tabs on left hand side of your backend panel.

5. First of all, add all the gift items as products in Sell > Catalog > Products
6. Then add components in “Gift Box Component” tab.
7. Lastly add gift box using “Gift Box Builder” tab.

Manage Gift Box Component Tab

1. After adding your gift items as products, next step is to create components. By components you will create gift box categories i.e If you are creating a gift box that includes a watch, a pen and a tie clip. Then Watch will be first component that will allow users to select their desired watch from the list of all the watches that you have included in watch component.
2. On left hand side click on “Gift Box Component” tab.
3. From here you will be able to edit or add new component.
