Getting Started!

Overview

Prestashop Labels and Stickers module allows you to add labels, stickers, and badges on the product images. You can filter products individually, by category, price, or tags, and display specific product labels and Stickers. The product stickers convey special information to your customers regarding the product. You can add multiple labels like; 'New', 'On Sale', 'Buy 1, Get 1 Free'.

Installation Instructions

1. Go to Modules → Modules Manager → Click Upload a Module → Browse for Downloaded Module ZIP file and click Upload this module.
2. Click Proceed with Installation.
3. Make sure Cache is disabled in Advance Parameters → Performance.
4. Go to Modules → Modules Manager → Labels and Stickers to Configure the module

User Guide

Module Configuration

1. Go to Backoffice → Go to Modules → Modules Manager → Products Labels & Stickers → Configure

2. Here you will select the types of stickers. They can be either CSS Based or Java.

Note: If stickers are not showing then follow the next steps.

3. In case you are using JS based stickers make sure to add hooks in following files.

4. Add “displayProductListFunctionalButtons” to file
“/themes/YOUR_THEME/templates/catalog/_partials/miniatures/product.tpl”

5. Add “displayProductListFunctionalButtons” to file
“/themes/YOUR_THEME/templates/catalog/_partials/product-cover-thumbnails.tpl”

6. In case you are using CSS based stickers then add this hook to following files.

7. Add “{hook h='displayProductPageCss' product=\$product}” to file
“/themes/YOUR_THEME/templates/catalog/_partials/miniatures/product.tpl”

8. Add “{hook h='displayProductPageCss' product=\$product}” to file
“/themes/YOUR_THEME/templates/catalog/_partials/product-cover-thumbnails.tpl”

9. Then click save

Stickers Settings

Type of Sticker: CSS Based

? In case you are using CSS Based, please add this hook in two files

1: file /themes/YOUR_THEME/templates/catalog/_partials/miniatures/product.tpl like shown in image:

```
{hook h='displayProductPageCss' product=$product}
```

2: In file: /themes/YOUR_THEME/templates/catalog/_partials/product-cover-thumbnails.tpl like shown in image:

```
{hook h='displayProductPageCss' product=$product}
```

```

{block name="product_thumbnail"}
  {if $product.cover}
  {hook h='displayProductPageCss' product=$product}
  <a href="{ $product.url}" class="thumbnail product-thumbnail">

```

```

{if $product.cover}
{hook h='displayProductPageCss' product=$product}
{if $product.default_image}

```

Save

Manage Image and Text Stickers

1. In back office on left hand side click on “Product Labels and Stickers” → “Manage Text & Image Stickers”
2. Here you will find list of all the stickers you have already made. Click on + button to add a new text or image sticker.
