Private Shop - Lite

PrestaShop Module

User Guide

Intended Audience

The content of this document is designed to facilitate the users - managers, supervisors and others of **Private Shop - Lite** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand on how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

Note:

This is the Lite version of our Private Shop module, offering basic features to restrict access to your PrestaShop store. For advanced functionality such as password-protected pages, page restriction by user groups, IP addresses, and URLs, as well as registration form customization, please explore the full version of the module.

You can learn more and download it from the link below:

Overview

Create your own private shop and manage the sales of your product. Private Shop PrestaShop Module allows you to hide pages, particular products, specific product categories or specific CMS pages to the selected customers.

Installation Instructions

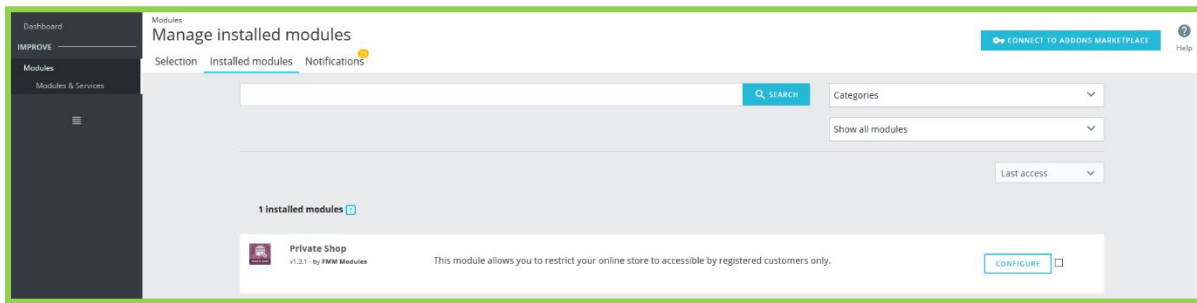

- Log into PrestaShop administration panel, go to Modules → Click Add new module.
- Select privateshop.zip which you downloaded and click Upload this module.
- Scroll down and find Private Shop-Lite and click Install. You are done
- Clear Cache in Advance Parameters → Performance.
- For Settings Go to Modules → Modules → find Private Shop and click Configure.

User Guide

How to Configure the Module:

At the back office, go to “Module & Services” and click on the “Installed Modules” tab. Here you will find your module. Click on “Configure” to continue.

General Settings

- **Login Title:** Title of Login dialog box
- **Signup Title:** Title of signup dialog box
- **Form Position:** Select where you want to show your form
- **Form Theme:** Default theme will use your store theme stylesheet.
- **Form Background Opacity:** Here you can select the opacity of form
- **Enable Signup:** Enable to enable signup option on frontend
- **Disable Birthday in Signup:** Option to disable birthday input field
- **Disable Gender in Signup:** Option to disable gender input field
- **Disable Newsletter in Signup:** Option to disable the newsletter signup option
- **Disable Offers Signup:** Option to disable offers signup on frontend
- **Restrict New Accounts?** Enabling this option will allow you to manually approve each new sign-up request
- **Show store title?:** Do you want to show store title right after logo on form?
- **Enable Header and Footer:** Enable to show header and footer on private login page
- **Use Custom Logo:** Here you can upload custom logo
- **New Accounts Message:** This message will be displayed after registration of restricted customers.

- **Background:** Background for the login page. Admin can use a solid color, an image or a youtube video

The screenshot displays the 'GENERAL SETTINGS' interface for the Private Shop Lite module. It includes the following sections:

- Login Title:** A text input field containing 'Private Login'.
- Signup Title:** A text input field containing 'Private Signup'.
- Form Position:** Three buttons labeled 'Left', 'Center', and 'Right'. The 'Right' button is currently selected and highlighted in green.
- Form Theme:** Two buttons labeled 'Modern Theme' and 'Default Theme'. The 'Modern Theme' button is selected and highlighted in green. A note below states: 'Default theme will use your store theme stylesheet.'
- Form Background Opacity:** A slider set to 0.70. A note below reads: 'Use values between 0 and 1 for example 0.6 or 0.85'.
- Enable Signup:** A toggle switch set to 'YES'.
- Restrict New Accounts?:** A toggle switch set to 'YES'. A note below reads: 'Do you want to validate new accounts OR all new accounts have access to webstore.'
- Show store title?:** A toggle switch set to 'YES'. A note below reads: 'Do you want to show store title right after logo on form?'.
- New Accounts Message:** A rich text editor with a toolbar. The message content is: 'Hello, thank you for registering an account with us. we will get back to you soon with **validation** procedure.' Below the text is an image of a woman's face. A note below reads: 'This message will be displayed after registration of restricted customers. You can use HTML tags, images, links etc...'.
- Background:** Three buttons: 'Apply Color', 'Apply Image', and 'Apply YouTube Video'. The 'Apply Image' button is selected and highlighted in green.
- Background Image:** A 'Browse...' button and the text 'No file selected.'.
- Select from gallery:** A dropdown menu showing 'linea-solar385x203.jpg'.
- Save:** A 'Save' button in the bottom right corner.

Access Control

- **Privatize:** Select what you want to privatize. Select “Whole Shop” to privatize your full store
- **Only Selected:** If you want to privatize specific pages then enable this option
- **Enable Product Selection:** You can privatize particular products by using “Only Selected” option above. Start by typing the first letters of the product's name, then select the product from the drop-down list.
- **Allow Category Selection:** You can also privatize full categories. First you need to select “Only Selected” from above.
- **Enable Supplier Selection:** You can also privatize suppliers from here.
- **Enable Manufacture Selection:** You can also privatize manufactures from here.
- **Enable CMS Selection:** You can also privatize selected pages
- **Allow Google to crawl? :** Do you want Google search Bot to access the webstore for SEO?
