Getting Started!

Overview

One Page Checkout PrestaShop Module changes the whole checkout experience of your customers. It is quick, elegant, easy to understand, and allows customers to communicate with store owner through comments field on checkout page. It supports multiple color schemes, sticky cart block, editable information and much more. Continue reading below for detailed information.

Features

PrestaShop Checkout Module provides you with a much simpler, easy to understand and customized checkout page. You can edit the information, style, color scheme and layout by using PrestaShop Single Page Checkout. Quick and simple checkout triggers quick conversions. Cart abandonments occur due to complicated and confusing checkout process. This add-on helps you to achieve your conversion goals by delivering effective **PrestaShop quick checkout** process.

PrestaShop One Page Checkout Features

Simple and user-friendly checkout on one page. Customers add all information at once in a hassle-free way to place their order

- Supports 4 types of page layouts such as 1 column, 2 columns right/left bar, and 3 columns. Checkout page automatically adjusts itself based on the page layouts.
- Customizable color schemes for checkout-page make it more meaningful and easy to easy to fill. To grab customer's attention and never let them miss any important information, different fields are marked with different colors.
- No Page reloads
- Supports Guest Checkout
- Customers can add new address, comments, select payment options, update product quantities easily which will be updated at the back office.
- Multiple Addresses support
- Ability to create new account during checkout
- Obtain important information from customers at the right moment. This PrestaShop One Step Checkout Module offers additional field for comments on checkout page. This allows customers to communicate important information with store owner regarding their order.
- Cart details are shown on checkout page
- Add/remove product quantity from checkout page
- Editable checkout page title
- Supports sticky/persistent cart table, it will make cart table fixed when scrolling down.
- Sticky/persistent summary cart block can be added. You can add information from back office such as brand logo, your services etc.
- Supports 'Auto-Confirm' and 'Default' order confirmation page
- Elegant design, easy to manage from back office

- One click installation and thoroughly tested for cross browser, cross PrestaShop versions compatibility.
- For any queries, you can go to ‘Ask a Question’ section of One Step Checkout PrestaShop plugin. Find an instant view of product features on live Demo.
