

# FME Modules

## PrestaShop Module User Guide

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the “**SEO External Link Management**” PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

4. **Clear Cache** in **Advanced Parameters** → **Performance**

## USER GUIDE

### HOW TO CONFIGURE THE MODULE

At the back office, go to **Modules > Module Manager > SEO External Link Management**. Here you will find the module configurations.

The screenshot shows the PrestaShop Module Manager interface. On the left is a sidebar with navigation options: Modules, Module Manager, Module Catalog, Design, Shipping, and Payment. The main area displays two modules:

- SEO External Link Management** (v1.0.0 - by FMM): Description: SEO External Link Management, and nofollow tags. Includes a 'Configure' button and a checkbox.
- Google sitemap** (v4.2.0 - by PrestaShop): Description: Generate your Google sitemap file ... [Read more](#). Includes a 'Configure' button and a checkbox.

## EXTERNAL LINKS NOFOLLOW SETTINGS

Admin can configure the settings for external Links.

The configuration page for the SEO External Link Management module includes the following settings:
