

# FME Modules

**PrestaShop Module**  
**User Guide**

## INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **Redirect after Login, Register and Logout** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

## INSTALLATION INSTRUCTIONS

1. Log in to **PrestaShop** administration panel, go to **Modules** → Click **Add new module**
2. Select **v1.0.0redirectcustomer.zip** which you have downloaded and click **Upload this Module**
3. Scroll down and find **Redirect after Login, Register and Logout** and click **Install**. You are done
4. **Clear Cache** in **Advance Parameters** → **Performance**

## USER CASES

### **Use Case 1: Welcome New Users with a Dedicated Page**

When customers register on your PrestaShop store, redirecting them to a personalized welcome page can significantly enhance their first impression. This page can include a thank-you message, a brief guide to setting up their account, and an exclusive introductory discount code. It's an excellent opportunity to guide them towards exploring featured products, top-selling categories, or any ongoing promotions, ensuring they feel valued and engaged from the start.

### **Use Case 2: Enhance B2B Client Experience**

For stores catering to B2B clients, the module offers a streamlined way to improve their experience. After login, redirect business customers to a dedicated dashboard or a section featuring wholesale pricing, bulk order forms, or exclusive resources. This tailored navigation ensures that your professional clients can quickly access the tools and information they need, simplifying their workflow and increasing their satisfaction.

### **Use Case 3: Promote Special Offers and Events**

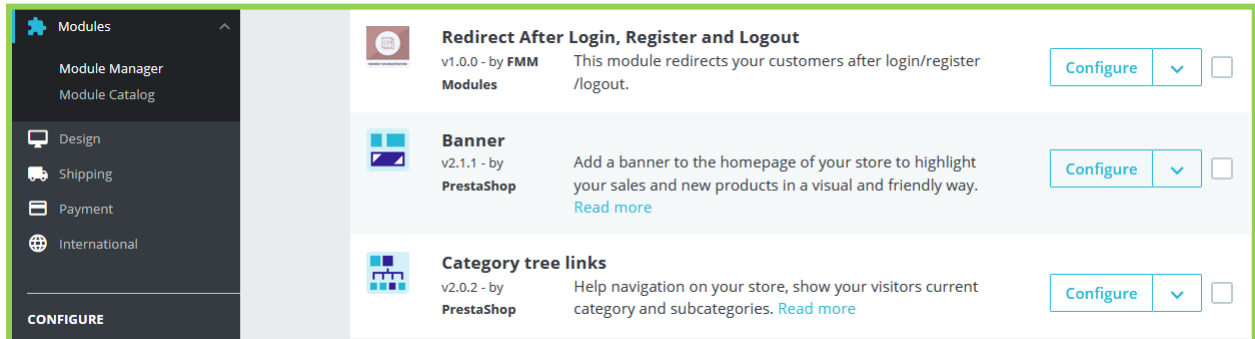

The module can also be a powerful tool for promoting special campaigns. For example, when customers log in, you can redirect them to a page highlighting ongoing promotions, seasonal sales, or new product launches. Similarly, after a user logs out, you can lead them to a thank-you page with a feedback form or upcoming offers, reinforcing your store's commitment to customer engagement and retention.

## USER GUIDE

### HOW TO CONFIGURE MODULE

At the back office, go to **Modules > Module Manager > Redirect after Login, Register and Logout**.

After clicking the Configure button you will find the following redirection settings:

- **Redirect after Login**
- **Redirect after Logout**
- **Redirect after Registration**

### 1. REDIRECT AFTER LOGIN

Admin can make configurations for the redirects after user's login.

Login redirect  YES  NO  
*Enable redirection after Login*

Redirect Type    
*redirect to specific page or custom URL*

CMS Page    
*select a cms page for redirection*

Group Based Redirection  YES  NO

- **Login Redirect:** Enable this option to redirect users after login.

- **Redirect Type:** Multiple redirect options to choose from
  - **Home:** Select to direct user to the home page.
  - **CMS Page:** Select to redirect user to a CMS page. All CMS pages will be available for selection.
  - **Category Page:** Select to redirect user to category page. All categories will be available for selection below.
  - **Custom URL:** Select to redirect users to a custom URL.
- **Group Based Redirection:** You can redirect all user from a particular user group by enabling this option. Enable and then select the desired user group.

## 2. REDIRECT AFTER LOGOUT

Admin can make configurations for the redirects after user's logout.

Logout redirect  YES  NO  
*Enable redirection after Login*

Redirect Type  ▼  
*redirect to specific page or custom URL*

CMS Page  ▼  
*select a cms page for redirection*
